

# Take a screenshot on your Android device

You can take a picture of your phone's screen. The image is called a screenshot. After you capture your screen you can view, edit, and share the image.

Important: Some of these steps work only on Android 9 and up. [Learn how to check your Android version.](#)

## Take a screenshot

1. Open the screen that you want to capture.
2. Depending on your phone:
  - Press and hold the Power + Volume down buttons at the same time for a few seconds.
  - If that doesn't work, press and hold the Power button for a few seconds. Then tap Screenshot.
  - If neither of these work, go to your [phone manufacturer's support site](#) for help.
3. At the top of the screen, you'll find Screenshot capture .

Tip: If there isn't a Screenshot capture icon, return to a Home screen to find it.

## Find, share & edit your screenshot

Tip: If you don't have the Photos app, you're likely running an older Android version. Open your phone's Gallery app > Album view > Screenshots folder.

1. Open your phone's Photos app .
2. Tap Menu .
3. Tap Device folders > Screenshots.
  - To share a screenshot, tap Share .
  - To edit a screenshot, tap Edit .
